www.effe.in

Do you know?

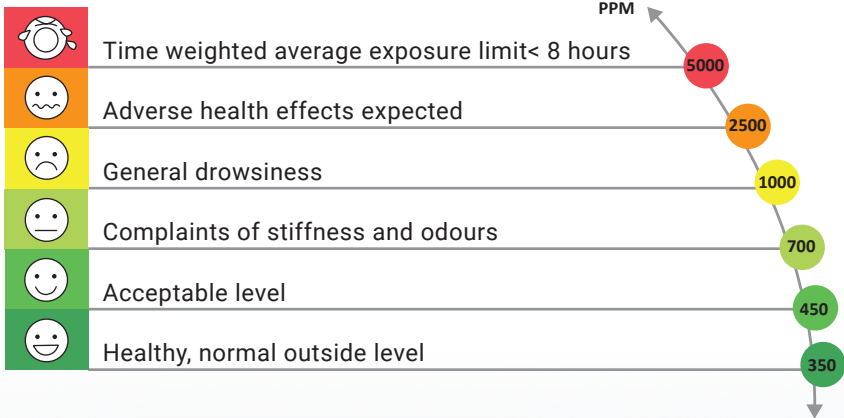

Human beings take
17000 – 23000
breaths each day

Our living spaces are
upto 5x more
polluted than outdoors!

People spend **90%** of
their life indoors

Globally, air pollution is
the **4th highest** risk
factor of death

Do you know the effect of CO₂ emitted by us?

Benefits of Good Air Quality

Reduced Allergies

Controlling PM 2.5 reduces allergies and skin rashes

Increased Productivity

Controlling CO₂ levels improves the work environment without dizziness and loss of focus

Avoid Respiratory Diseases

Controlling toxic airborne compounds from cleaning agents will avoid respiratory diseases

Improved Comfort

Controlling humidity and temperature optimally increases the comfort

We can't control the Air Quality problems unless we measure and understand

Parameters We Monitor

Application Areas

Hospitals

Commercial Spaces

Railways

Restaurants

Working places

Airplane

Hotels

Living Places

Your people matter.
their health is their wealth and...yours too!
